

M SHIVANI

DATA ANALYST | SQL | PYTHON | POWER BI | EXCEL

shivanimm6@gmail.com | +91 8317485607 | Mysore, Karnataka, India | [linkedin.com/in/shivani-m-m-aa5495275](https://www.linkedin.com/in/shivani-m-m-aa5495275)

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience in **Python, SQL, Power BI, Excel, data analysis, visualization, reporting, KPI monitoring, and problem-solving**. Experienced in analyzing campaign performance and working with large datasets to identify trends, investigate data-related queries, and support data-driven decisions. Strong foundation in data cleaning, preprocessing, predictive analytics, dashboarding, and cross-functional collaboration, with an MCA in Computer Applications and project experience across analytics, machine learning, web applications, and IoT.

TECHNICAL SKILLS

Programming & Data Analysis: Python, Pandas, NumPy, Data Cleaning, Data Preprocessing, Exploratory Data Analysis, Data Analysis

SQL & Databases: SQL, MySQL, DBMS, Data Querying

Business Intelligence & Visualization: Power BI, Excel, Matplotlib, Seaborn, Data Visualization, Dashboarding, Reporting

Machine Learning: Machine Learning, Predictive Analytics

Tools & Technologies: Jupyter Notebook, C++, JavaScript, Web Applications, IoT

PROFESSIONAL EXPERIENCE

Junior Campaign Manager | Mobbanner Media Solutions Private Limited

Nov 2025 - Present

- Analyze campaign performance data and prepare recurring performance reports to identify trends, performance gaps, and actionable insights.
- Monitor campaign KPIs and support optimization of digital advertising campaigns based on performance observations and reporting outcomes.
- Coordinate with clients and internal teams to execute campaign strategies, align reporting requirements, and follow up on campaign performance.
- Use campaign and operational data to support data-driven decision-making focused on campaign effectiveness, ROI, and client satisfaction.

Client Service Analyst | Theorem, India

Oct 28, 2024 - Aug 2025

- Analyzed and resolved client data-related queries by investigating datasets and identifying trends and patterns relevant to the issue being addressed.
- Worked with large datasets to support accurate issue analysis and provide data-based insights for operational problem-solving.
- Collaborated with cross-functional teams to improve operational efficiency through the use of data insights and structured issue resolution.
- Applied analytical thinking and attention to detail while handling client-focused data queries in a service-oriented environment.

SELECTED DATA & TECHNICAL PROJECTS

Diwali Sales Analysis using Python

- Performed data cleaning, preprocessing, analysis, and visualization to extract customer insights and support improved sales strategies. Used Python-based data analysis workflows to organize the dataset and turn observations into business-oriented findings.

Technologies: Python, Pandas, NumPy, Matplotlib

Heart Disease Prediction Using Machine Learning with Python

- Completed a predictive analytics project using Python and a structured healthcare dataset, applying machine learning concepts to support prediction-focused analysis. Demonstrated the use of machine learning and predictive analytics concepts to work with a structured real-world-style dataset.

Technologies: Python, Machine Learning, Predictive Analytics

EV Station Search & Slot Booking

- Developed a web-based application for EV charging station search and real-time slot booking, including reservation management and availability checks. Applied data management concepts to support station availability and reservation information within the application.

Technologies: Web Application, Data Management, JavaScript

IoT-based Soil Moisture Monitoring

- Built an IoT solution for soil-moisture monitoring and irrigation control with real-time monitoring through a dashboard. Combined monitoring, data visibility, and dashboard-based reporting to support real-time observation of soil-moisture conditions.

Technologies: IoT, Monitoring, Dashboard

ADDITIONAL TECHNICAL PROJECTS

AI Resume Analyzer | E-commerce Website | Health Care Chatbot | Live Chatbot for Final Year Project | MATLAB Simulink | Challenge Project Hub | Real-Time Voice Translator

EDUCATION

MCA | Mangalore Institute of Technology and Engineering

2022 - 2024

- Master of Computer Applications. Relevant coursework: Data Analytics, Databases, Machine Learning fundamentals.

BCA | Seshadaripuram Degree College

2019 - 2022

- Bachelor of Computer Applications.

CORE COMPETENCIES

Data Cleaning & Preprocessing | Data Analysis | Exploratory Analysis | Data Visualization | Statistical Analysis | KPI Monitoring | Campaign Performance Analysis | Predictive Analysis | Reporting | Problem Solving | Client Service | Cross-functional Collaboration
